

Customs Clearance is a specialised area and there are heavy penalties for making false declarations. There can be a heavy price to pay too, when your shipments are delayed, resulting in unfulfilled orders and unhappy customers.

We understand what needs to happen to get imports handled and cleared smoothly and delivered promptly. Where it could take the inexperienced person many long hours to complete the process, we can get most shipments cleared on their day of arrival. We complete the paperwork and get things processed fast. Our tailored service can take the headache out of every type of importation, including unique procedures and special handling requirements.

Our success comes from our extensive knowledge of the mechanics of customs clearance, and experience, complemented by personal and commercial values that promote professional, supportive and collaborative business relationships.

Our service tailored to your needs

Customs Clearance Ltd is a specialist customs broker. Based in Isleworth, close to London's Heathrow Airport, and trading since 1999, our business is simple - clearing goods through customs and getting them to their destinations – fast.

We service every type of customs clearance client, from private individuals through courier businesses, to large corporates; from one-off imports to regular shipments by air courier, air freight, sea freight and road. We're open 7 days a week, catering for consignments originating anywhere in the world.

We employ state-of-the-art equipment, facilities and technology to manage shipments and stay up-to-date with changes in HM Revenue & Customs regulations and requirements that affect Our clients' businesses.

Below are some of the services we offer:

- ASM, CNS and LSI-Sigma data freight software
- DEFERMENT and FAS facilities
- Membership of IATA, CASS and accounts with all major airlines

- ERTS bonded warehouse

Experts in our field, we offer consultancy services and advise clients how to manage their imports most cost-effectively and efficiently.

Customs Clearance

We offer tailored customs clearance services to suit every requirement – both for private individuals and businesses. Our aim is to deliver an efficient, professional, timely service, specific to individual requirements.

Air Courier

Our integrated software delivers reliable information, faster clearance and fewer errors. We produce the documentation and consignments clear customs without a hitch, allowing you to provide a dependable quality of service to your customers.

Air Freight

On hundreds of air freight shipments every day, we pay the charges, arrange for pick-up and delivery and invoice on completion. We take care of import licences where applicable. We can even arrange the full air freight process from pick-up to delivery, from origin to destination.

Merchandise In Baggage

Bringing dutiable items through the red channel is sometimes not as straightforward as one might wish. We take care of the paperwork and ensure your purchases speed through customs, allowing you a stress-free end to your vacation or overseas trip.

Sea Freight

Our international door-to-door service using 20ft and 40ft containers or palletised is very competitive. We can arrange for sea freight pick-up and delivery and of course, we will handle the customs clearance for you.

Road Transport

Same day and overnight collection and delivery services. Movement of goods around the UK and across mainland Europe, from small packages to larger consolidated cargo shipments. Customs clearance where needed. Clients include businesses shipping to wholesalers, retailers and end-users and increasingly, e-commerce businesses.

Break Bulk and Distribution

For clients with large volumes of shipments dispatching to multiple locations. Our ERTS bonded warehouse allows us to store consolidated shipments, handle the customs clearance, break a shipment into individual consignments and onward ship to multiple destinations.

Rudee Bertie and Brian Kelly, joint MDs of Customs Clearance Limited, engage with multiple retail, wholesale and e-commerce businesses worldwide.

Having worked in the customs clearance and air freight industries for over 20 years, they have a comprehensive understanding of the challenges faced by organisations in managing importations and deliveries efficiently and cost-effectively and maintaining high levels of customer satisfaction.

Rudee and Brian conduct specialist customs consultancy, assessing and reviewing clients' customs and importation processes and making recommendations to improve productivity and profitability.

A typical consultancy assignment involves the following:

Investigation: Listen and gather data on the full picture – import, export, pick-up, delivery, storage and customs clearance.

Evaluation: Review current service provision and processes and assess their effectiveness, value-for-money, suitability etc.

Recommendations: Make recommendations, without prejudice, on how best to improve the processes. A balanced perspective is offered, leaving the client with an appreciation of the options and the ability to make better informed decisions.

When import/export is a critical element of a business, it is vital to show a strong hand in commercial dealings. Rudee and Brian can assist at business meetings, trade shows and exhibitions and can contact your prospective customers or suppliers on the phone or in person, on your behalf, to handle questions about your own importation procedures.
